Safe at Venice School Looted

Madison School Also Burglarized; \$263 in Cash Taken at Venice

Burglars broke into the Venice high school and the Madison junior high school during the weekend, broke open a safe in the Venice school from which they took \$263 and caused considerable damage by vandalism at the Madison school.

The money taken from a cabinet safe in the office of Lewis B. Sabin, principal of the Venice high school, was made up mostly of receipts from the Friday night Venice-Dupo baseball game. Sabin said some lunch money also was included.

The Venice high school break-in was discovered about 7 a.m. today. Police said the intruders attempted to pry open the door to Sabin's office, then broke the metal covering off a mail slot and apparently managed to unlock the door through the slot. The safe was part of a metal cabinet and was pried open.

Break Machines
The thieves also entered a classroom and broke open a pencil machine in which there was no money, and broke into the teachers' lounge where they pried open a soda machine which also contained no money. Police said they could find no evidence of forced entry into the school building.

At the Madison junior high school the intruders gained entry by prying open a rear door on the east side leading to the cafeteria where they pried open a soda machine and a candy machine, taking the money from both coin boxes and about 100 candy bars.

The burglars broke the locks on 12 lockers, ransacked them, and then sprayed the walls with blue paint they obtained from the school workshop. School officials said all rooms on the second floor apparently were entered, but nothing was believed missing.

Capture at Cash Drawer
"A theft charge was filed against a man believed to be a St. Louisan after he was captured by William Theokle, owner, in the Chain of Rocks motor office in Mitchell at 12:20 a.m. Sunday. The man allegedly had opened a cash drawer and had \$121 in his hand.

Held by Theokle until deputies arrived, he said he was James Walker of Chicago. Deputies planned to question him further about his identity, in the belief that the man is an alias.

Three men had arrived in a car and one asked to see a car. While an employee was accompanied by the officer unattended, another of the trio entered the office and was found there.

Venice police today were seeking a man, 30, 1228 Logan street, Venice, who has been missing from his home since 5:30 p.m. Saturday and whose car was found abandoned on Bend Road just off Route 203.

Contract Talks in Pact 20, Killed in Vietnam Saturday Talks Continue Daily

Contract talks in an effort to resolve issues of a strike that has halted 2000 workers at General Steel Industries, Inc. were resumed with U.S. Mediators in St. Louis this morning, following four days of similar meetings last week.

Negotiations also are to be resumed Wednesday on a contract agreement for 700 striking locksmiths at the Madison plant of Dow Chemical Co. Union leaders and Dow officials met Tuesday and Wednesday last week.

A strike of 1300 members of United Steelworkers of America Local 1023 began Aug. 31 and went into its 84th day today. The strike at GSI has idled 700 non-striking employees.

Progress has been reported in the General Steel negotiations, but union leaders and company officials are said to be still deadlocked over fringe benefit issues. The strike at Dow involves a dispute over seniority and job security contract language.

No further meetings have been scheduled in the strike of 60 members of International Association of Machinists District 9 at American Steel Foundries following rejection of a new contract offer by the company last week. A American Steel Foundries is operating. It completed a new contract with its 700 steelworkers Oct. 1.

Meanwhile company officials at Dow reported they were notified this morning that the National Labor Relations Board has dismissed proceedings in which the union charged the company with unfair labor practices in the dismissal of several employees because of picket line activities.

The NLRB complaint also charged the company with refusal to bargain. The company said the NLRB ruled the employees had not been discharged unfairly and that the company had not refused to bargain on contract terms.

Other permits were issued for four commercial purposes, \$68,000; seven for garages and carpentry, \$9594; five for remodeling and repairs, \$3300; one for an addition to a home, \$400; and two for miscellaneous purposes, \$13,040. The advisory group will meet again in late January, at which time the bibliography on studies they are preparing will be presented.

Tudor's unit, RUD, was formerly known as Public Administration and Metropolitan Affairs. The new name was inaugurated to more clearly indicate the mission of the unit.

Seven to Advise University On Area Development

(Picture on Page 14)
Citizens' advice and consultation in the fields of regional and urban development are being sought by one of the Area Services of Southern Illinois University's Southwestern campus.

In its initial meeting on the campus, hosted by SIU Vice-President for International and Area Services Ralph W. Ruffner, the newly-named advisory committee to the university's Regional and Urban Development Studies and Services (RUD) outlined two recommendations.

William J. Tudor, director of RUD, will, according to the committee's recommendations: 1. Make a collection of studies dealing with area development needs. From this collection, the list will prepare an annotated bibliography on the studies, listing in a composite form the nature of the work.

Establish Priorities
2. Work with this advisory committee to review all the studies and establish a working list of priority needs in order to determine action for implementation.

Members of the new committee were selected on the basis of their knowledge of the Madison-St. Clair counties area as well as their knowledge of the problems of the area and their interest in working with the university in joint ventures.

Board members are Ferd Goewert, Belleville, Chamber of Commerce manager who formerly held similar duties here; George Gregory, East St. Louis; Earl Jules, Collinsville; Carl Mathias, Granite City, who is service area manager of Illinois Power Co.; Mayor Raymond Rogers, Edwardsville; Walter Thomas, East St. Louis; and Robert Yeates, Alton.

Rain, Fog, Frost Big Factor in Mounting Number of Accidents

Two men were killed in separate crashes and 26 persons were injured in 47 holiday weekend accidents as the Quad-City area recorded its heaviest traffic toll in many months.

The Thanksgiving holiday which was stretched into a four-day vacation for many combined with a weekend of rainy, foggy and frosty weather, contributed heavily to the crash toll. A large number of the accidents occurred on bridges and overpass structures where frost provided ice-slick surfaces.

Karl Edward Valentine sr., 49, of 5207 Daggett street, St. Louis, was killed at 9:40 p.m. Saturday when his westbound pickup truck collided head-on with the northeast abutment of the superstructure at the eastern end of the McKinley Bridge.

He suffered rib fractures which are believed to have caused his heart to rupture. Rushed by ambulance to St. Elizabeth Hospital, he was pronounced dead upon arrival there.

A witness said the Valentine auto had been traveling west on Broadway in Venice and made a U-turn on the Broadway viaduct, almost causing a collision with another vehicle.

The motorist then paid the bridge toll and proceeded to the Venice approach to the bridge, a toll collector told police.

Both the witness and the collector said the driving had appeared to be erratic. Police found a half-empty fifth of liquor on the seat of the truck. The crash damaged the front of the truck, which was towed to a garage and broke warning lights on the bridge abutment.

Police Seeking Driver in High Speed Chase

Venice and Madison police Friday were seeking the driver of a car which led officers on a high-speed chase through Madison, Venice and onto the main span of McKinley bridge, and ended only when the car crashed into a utility pole on County road in Venice. Police said six youths leaped from the wrecked car and fled on foot through Lee Park.

The incident started in Madison shortly before 10 p.m. Wednesday when a Madison police officer ejected a group of youths from the Memorial recreation center. Outside the center, police reported, the group threw a bottle at another youth and sped away in a car. The officer gave chase and radioed the station that the car was headed their way.

A Venice squad car on Main street near Broadway pulled into the street in the path of the fleeing car as it rounded the Broadway turn at Main street, but the car skidded over to one side of the roadway around the police car and headed onto the bridge at 70 miles per hour with the Venice car in pursuit.

The fleeing youths ran the toll station, but at a point near the center of the span skidded on wet pavement and made a complete turn, facing east. The Venice police car pulled in front of the car, but the driver backed rapidly and speeded around the squad car, heading back toward Venice.

A Madison police car arrived meanwhile at the bridge toll station and was almost hit broadside by the fleeing auto which again ran the toll station and continued off Main street onto County road where it crashed into utility pole at the underpass.

Venice officers said six youths jumped from the car and fled. The car, bearing an Arkansas license was towed away by police who are attempting to trace its ownership through a license check.

Police said that when the driver of the car is apprehended he will be named on charges of speeding, reckless driving, attempting to elude a police officer, carrying open liquor in a car, two counts of running the toll gate and improper lane usage.

Three cases of beer were found in the car after the crash, police said.

Cars driven by Earl D. Woford, 21, of 1868 Rhodes street and Thomas F. Redler, 201 Madison avenue, Madison, were damaged in a collision at State street and Niedringhaus avenue at 12:10 a.m. Saturday. Woford was ticketed on a charge of making an improper start from a parked position. Woford's car was damaged in the front and Redler's in the right rear.

Area UF Campaign Continuing Toward \$385,104 Goal

Recover Lost \$50

On Thanksgiving Day

A joyous Thanksgiving was observed by Mrs. Penny Walker, 2638 East 24th street, a beauty operator, who recovered \$50 she had lost earlier in the week.

Her small coin purse containing a \$20 bill, a \$10 bill, two \$5 bills and 10 \$1 bills, was found last Monday afternoon in the vestibule of the Southwestern Bell Telephone Co. office by Mrs. Mildred Lewis, 2812 Warren avenue, and was turned over to police. The small change purse did not contain any identification.

"Now I can have a very thankful Thanksgiving," Mrs. Walker remarked to police as she claimed her purse and money, at 10:30 a.m. on Thanksgiving Day.

Rear of Auto Struck

An auto driven by James A. Spencer, Roxana, struck the rear of a car driven by Henry E. Albora, 2904 Grand avenue, who was turning left off Nankook road into the Nankook Village shopping center at 3:30 p.m. Wednesday.

With only one of eight divisions topping its quota in the 1968 Tri-Cities United Fund campaign by the fifth and final report meeting last week, the annual four-community appeal still lacks \$2,631 of the \$385,104 goal to finance needed services next year by 19 participating UF agencies.

Pledges announced at Wednesday's dutch treat luncheon meeting in the YMCA totaled \$59,483, or 81.6% of the current goal, resulting in Thomas R. Remington, general chairman, urging campaign workers to continue their efforts until all prospects have been contacted and pledge cards received.

Although no formal report meetings are now scheduled, division and section chairmen and other campaign leaders will receive special informative bulletins issued by the United Fund agency, Remington told the workers gathered at the final luncheon.

Top Division

It was announced at the meeting the Public Services Division, headed by Lt. Jon Guenther of the Granite City Army Depot, achieved total pledges of \$19,132, representing 100% of its goal.

Three sections exceeding the goal in the Public Services Division, included state and county, headed by Malcolm

Thompson—\$76, or 144%; federal, James Dix, chairman—\$8355, or 101.9%; and United Fund agencies, Howard Colquh, chairman—\$2204, or 115.2%. A fourth section—Granite City area, headed by Robert Stevens, reported 96%, or \$7897 of its goal.

Despite the annual goal not being reached in time for the final report session, several awards were earned and presented to sectional leaders, individuals and employee groups whose contribution totals exceeded established quotas or fair share giving.

Award for Miss GC
Remington presented special LFI Angel awards to Miss Granite City—Letitia Marmon, who appeared at many functions on behalf of the 1968 UF appeal, and Thomas Kolesa, campaign public relations and promotion chairman.

LFI Angel awards also went to Edwin Reiske, chairman of the Union Staff section which attained 148.3%, or \$890 of the \$600 goal; James Dix, chairman, Granite City Army Depot, section, 100%, or \$8355 of the \$8200 goal; William Milmore and Robert Morris, co-chairmen of Industrial Employees Team 6, for achieving 100% of their goal; and Dr. Kenneth Hillmer, Dental section, chairman, 100%, of the \$750 quota. Employee Fair Share plaques

were presented to Granite City Press-Record and Gebco Machine Co., 8th annual awards; O. H. Sternberg Co., 7th award; John Manville Products Co., 5th award; United Steelworkers District Office, 3rd award; and Owens Illinois Forest Products Div., Division, first annual award.

Good Citizenship Awards
100% participation and pledges averaging \$10 per employee, were received by Arnette Patton Co.; Mercantile Mortgage Co.; Madison County Federal Savings and Loan Association;

Park Board Ok's Ice Rink Use for More Programs

The Granite City park board Wednesday night approved a plan to place an ice skating rink for a Granite City high school physical education class. The rental price of \$6 per hour, which is actual cost of maintenance.

The rink will be used for physical education classes under a schedule yet to be determined. The park board also agreed to check into the possibility of an expanded schedule for the Girls Athletic Association.

Board members agreed to a plan under which the funding costs of the ice rink construction will be placed in escrow from regular tax income, through purchase of savings certificates. This would allow financial costs with income from ice rink operation while the money for payment of bond costs and interest would be on deposit drawing interest at six-month intervals.

Board members pointed out that they had not approved in its entirety the recently announced 20-year development program prepared by the Southwestern Illinois Metropolitan Area Planning Commission because the SIMAP report contained recommendations for establishment of two parks the district already has.

Until the report is corrected and clarified, the park district will withhold approval of the program. Board members pointed out the report suggested the park district establish recreational areas in the West Granite area where there is a park and the Beckman section in which the park district already has a park.

Because the park board's next regular meeting falls on Christmas Day, the board agreed to hold a recessed session on the night of Dec. 26.

A request by the Rotary Club for use of the ice rink for another Home Show next May 22, 24 and 25, was approved. Board members pointed out that all park board meetings are open to the public and encouraged public attendance at such sessions.

1700 Girl Scouts Benefit from United Fund Special CD Management Course Starts This Week

Girl Scouts in the Quad-Cities area number nearly 1700—about 300 more than last year—and each one is hopeful this year's Tri-Cities Area United Fund will reach its goal.

The River Bluffs Girl Scout Council has been allocated \$23,000 of the local United Fund monies, an increase over last year of \$1250.

In the local area there are 100 troops, and the \$23,000 allocation of the local United Fund covers the operational costs for the local scouts and the camps they attend.

Actually, the River Bluffs Girl Scout Council covers nearly five counties—Madison, Jersey, Macoupin, St. Clair and Monroe, and the council offices are at 105 North Main street in Edwardsville, staffed by four professionals, one camp manager and five office workers.

Local Board Members
Serving on the board of directors from here are Mrs. George Eubanks, a past president of the council; Mrs. Edgar Votaw, Mrs. John Brinkmeyer, Mrs. David Friedman and Mrs. H. P. Huxel. The current board president is Mrs. Charles F. Allen of East St. Louis, and the executive director is Verle W. Kins of Belleville. Mrs. Votaw of Granite City is chairman of District IV which is comprised of the local area.

The local program of Girl Scouting also is aided by 271 active adults, who serve as troop leaders and work directly with the girls.

These volunteers have the responsibility of achieving the purpose of Girl Scouting—to inspire the girls with the highest ideals of character, conduct, patriotism and service so they will become happy and resourceful citizens.

The program trains the girls, seven through 17 years of age, to become better homemakers and citizens through activities in nature study, first aid, hobbies, art, homemaking and camping.

Weekly meetings are held either at the homes of the leaders or in schools.

Recently revised from the traditional three age level division of the program (Brownies, Intermediates and Seniors) to four—Brownies, Juniors, Cadettes and Seniors—Girl Scouting has

adapted to changing times and tailored its programs to meet the needs of the youth of the 1960s.

Six Campsites
The River Bluffs Council, through funds from various community United Funds, helps to maintain six campsites—Camp Lakota at Glen Carbon, Camp Torqua at Edwardsville, Camp Rock at Belleville, Camp Harrison at Collinsville, Camp Chanayata at Plainfield and Camp Farmington at Farmington, Mo.

The sites are used each summer for day camp or established camp and also provide facilities for overnight or weekend camping.

Girls of the Quad-City area use Camp Lakota for day camp and weekend camping. Established camp is a 1000-acre tract in the Ozark hill country, first known as Butterfly Lake, and now renamed Camp Farmington. It was purchased from funds of the Girl Scouts sales of cookies.

One phase of Girl Scouting is aimed to aid them in becoming better citizens by showing an interest in community affairs. This is carried out each December through the Festival of Giving, at which time the girls do food stuffs to provide Christmas baskets for needy families.

They also make Christmas tree decorations which are distributed with the baskets.

Troops or individual groups of girls visit and entertain senior citizens in nursing homes, provide toys for youngsters in the local hospital.

The girls are urged to attend the church of their choice for religious education and also are instructed in the laws of the land, the care and use of the American Flag and respect for the advantages offered in this country.

4th Bond

junior college and 4.99 cents working cash fund.

Again assuming \$215 million assessment, a successful tax referendum Dec. 7 would permit \$239 million education fund rate instead of the projected \$215, based on the 1968-69 budget and levy adopted on Aug. 28.

\$12.12 Million Valuation
Assessment now is \$12,173,946. To fully support the new budget, the valuation of taxable real estate and personal property in the school district would have to rise \$19,732,781, and that large a gain is not anticipated.

Supt. Bob J. Davis, a citizens' committee and the Southwestern Illinois Metropolitan Area Planning Commission foresee enrollment gains not only in the immediate future but also for a prolonged period of time.

"The district has endeavored in the past to keep pace with such growth," Supt. Davis has pointed out.

Major projects of past bond issue elections have been as follows:

Past Bond Programs
May 2, 1953-Coolidge junior high school, Frohbit and new Logan grade schools, Marshall grade school annex, gymnasium building and music wing at Granite City high school.

Nov. 2, 1957-Prather junior high school, Lake, Wilson and Maryville grade schools and renovation of Central junior high and the Emerson, McKinley and Washington grade schools.

May 23, 1964-Grigsby junior high school, Parkway grade school, Granite City high school cafeteria-classroom building.

In addition, the school district has built additions and improvements in recent years at GCIS, the Coolidge, Prather and Central junior high schools and the Emerson, Frohbit, Lake, Logan, Marshall, Maryville, McKinley, Mitchell, Nameoki, Nedringhaus, Stallings, Washington, Webster and Wilson elementary schools.

Church Rooms Rented
"With all of this, we are currently renting four rooms from area churches, and have also changed attendance boundary lines to equalize loads and to use each building more effectively," Supt. Davis notes.

"According to projections by SIMAPC, the senior high will virtually double in population by 1985."

"We are now operating GCIS at 95% of total use. In other words, most classrooms are in use seven periods a day. At present we have 2965 enrolled at the high school."

"We cannot finance the building of a new senior high at this time. Estimated costs range from \$7 million to \$8½ million, and we have slightly under \$6 million in bonding power available. Even if all of this were

Three Conduct Charges

Anderson Jordan, 38, of St. Louis, and Herman Taylor, 35, of Indianapolis, Ind., were arrested at 3:30 a.m. Thursday in the 2200 block of Madison avenue for investigation and later were charged with disorderly conduct. They were released on \$25 cash bail each pending a hearing set Dec. 10.

Church Window Damage

Ten stained glass windows in the south end of the Nameoki United Methodist Church, Nameoki road and Primrose avenue, were damaged by air rifle pellets from other windows also were knocked out of the church bus, according to a report to police at 4:45 p.m. Friday.

used to build a senior high with less facilities, we would have nothing left for the elementary and junior high schools."

"According to the projections of SIMAPC, the elementary enrollment will increase approximately 3870 by 1985."

"By 1970-71, it is estimated there will be 9070 in kindergarten through eighth grade. At the present time we have 8211."

Six Old Schools Closed
"We are using elementary buildings that should be phased out by 1985-Washington, Stallings, McKinley, Logan Annex and the Emerson, Marshall, Webster and Washington schools."

what order such phasing out process should take place is something to which the board must give serious consideration.

"The junior high situation has been eased somewhat this year with the opening of Grigsby junior high school. However, it will not take too many years to find these facilities again overburdened."

"Here again, as with certain elementary schools, we must consider the future of Central junior high school. It has served this community well and long, but it cannot do forever. It is the sixth best facility for school use at its location, site size and age."

It is planned to convert Coolidge into part of GCIS and house all pupils in grades 6-12 on that campus. There would be room for 4000 junior high students besides Coolidge would serve grades 7-8, with 900 at Prather, 750 at Grigsby and 750 students at Central.

Future 2nd High School
The 63-acre Wein tract being purchased under a contract for 750 at Grigsby and 750 students at Central.

The elementary school proposed on the 12-acre site the district has acquired in the Norwood subdivision north of West Pontoon road would house over 600 pupils living west of the railroad tracks, easing enrollment pressure at the Mitchell, Nameoki and Maryville schools. In turn, Mitchell would relieve Stallings and Parkway.

Instead of issuing bonds, for which interest must be paid, the school district has considered a pay-as-you-go method. However, it concluded that enabling legislation has not yet given clear authorization for such a procedure.

Clarifying legislation will be sought.

The school board has considered the possibility of fuller utilization of existing buildings and has voted to create a semi-permanent citizen study group in January to advise it on "new concepts to enhance the educational programs at the most economical cost."

**Phone Campaign
For School Bond
Election Begins**

A get-out-the-vote campaign for the Granite City school district special election Saturday picked up speed this morning with the beginning of a telephone campaign.

PTA mothers from all elementary schools are calling parents of school children to urge support of the bond issue and tax rate increase. Goal is the largest turnout ever to participate in a school bond election here.

Representatives of high school organizations used part of their Thanksgiving vacation to distribute sample ballots in different areas of the community.

The National Honor Society of GCIS has volunteered to provide free baby-sitting service on the day of the election. The girls will go out in pairs for a half-hour period to be sure that all interested parents are able to vote. Parents desiring this service may call 877-3059 Saturday.

A transportation pool has been established to drive voters to the polls. Cars and drivers are being provided by volunteers from the Chamber of Commerce, Granite City Education Association, Jaycees and American Federation of Teachers.

Those needing transportation to the polls are to call 877-3059 on the election day.

Supt. B. J. Davis is urging that anyone desiring information on the bond issue or tax referendum call the board of education office this week. He called for "not only a large vote, but an informed one."

Supt. Davis commented, "I feel that the merit of the program proposed by the Citizens Committee is such that if people are fully informed of school district needs, passage of both propositions will be assured."

Elmer Noxon, Father of Mrs. Schweitzer, Dies

Elmer W. Noxon, 77, Webster Groves, Mo., father-in-law of Col. Charles B. Schweitzer of Edwardsville, former Granite City Army Depot commander who is now an official of the SIU Foundation, died Thursday at the Deaconess Hospital, St. Louis, after suffering a stroke at his home.

Mr. Noxon, a native of Jamestown, N. D., and a graduate of the University of Illinois, was chief engineer of the Ralston-Purina Co. before retiring. He is survived by his wife, Mrs. Elmer Noxon; his daughter, Mrs. Kelly Noxon; his daughter, Mrs. Schweitzer; a son, E. Warner Noxon, Bettendorf, Ia.; six grandchildren and one great-grandson. Long of SIU to Honor British Newspaperman

An American journalism educator will participate in a BBC broadcast in England on Dec. 10 in honor of a British newspaperman who in 1963 was the first Englishman since the Revolutionary War to raise the Union Jack over the state of Illinois. The occasion is a salute to H. R. Pratt Boorman on his 40th anniversary as editor-in-chief of the Kent Messenger, Maidstone, England. Howard R. Long, chairman of the department of journalism at SIU, Carbondale, will not attend the celebration but will send a recorded message of congratulations for his friend.

Long's friendship with Boorman covers the past 10 years and the flag-raising incident stems from a dinner on the SIU campus in 1960 at which Boorman was presented an American flag with the suggestion he fly it in England on the Fourth of July. He did, and on a return visit to the University in 1963, at special ceremonies he hoisted the British flag over the campus in observance of the birthday of Queen Elizabeth.

DOLLS—200 OF THEM—will be on display this week at the Trust & Savings Bank. Judging is shown in progress Saturday by (left to right) Mrs. Mary Yevin, Granite City high school home economics director, Miss Jolene Hackney, president

of the GCHS Red Peppers organization, and Earl Tucker, owner of the Granite City School of Beauty Culture. The public competed in dressing the dolls, which will be given to needy children at Christmas.

Ramach Named Office Manager By Circuit Clerk

George Ramach of Madison was named as office manager in charge of procedures and personnel in the office of Clerk of the Circuit Court Willard Portell.

He has been in charge of the criminal, juvenile, bonding and mental division for the past two years and previously served as chief deputy sheriff during the term of Barney Fraundorf.

In announcing changes in personnel, Portell said Virgil Phipps of Granite City will remain as comptroller.

Mrs. Thelma Gonterman of Venice will serve as Portell's secretary. Mrs. Hilda Melton of Granite City will be in charge of the front office. Mrs. Geraldine Hoover of Granite City will be in charge of the law division. Michael Henkhaus of Beahm will remain in charge of the probate division. Mrs. Lorraine Bode of Edwardsville will be in charge of the family division.

Remaining on duty in the Granite City division will be Mrs. Helen Homan as associate circuit clerk with the clerk's court and Mrs. Dorothy Ming and Mrs. Gloria Schuman in the traffic office.

Carl Heaton of Granite City will continue as a court room clerk with duties both in Granite City and Edwardsville.

Portell commented that his office currently is understaffed and that some changes were made to permit a shift in personnel where needed. With the changes, he said he is attempting to achieve greater economies in the face of increasing case loads.

He said a deputy for criminal cases will be hired to succeed Ramach in the near future, but a chief deputy will not be appointed at this time due to a reduction of money in the budget.

Additional personnel will be employed when his office expands into quarters now used by the county highway division, which is to move its facilities into the renovated old post office building at Edwardsville, acquired last year by the county.

Portell noted that his office staff includes seven widows. The staff includes 38 full-time employees, while another two are on a part-time basis and another is hired temporarily.

Recordings for Men Overseas Start Today

A "talking letter" which can be sent to servicemen overseas may be recorded free of charge starting today, in the Tri-City Red Cross chapter office, 1411 Twenty-first street.

The service will be offered for the next three weeks, with recording sessions held Monday through Friday between 9:30 a.m. and 4 p.m.

The annual program enables families of military personnel to record their voices, later mailing the unbreakable disc to sons, husbands, fathers and brothers who will be away from home during the coming holiday season.

Recordings also may be made by relatives of servicemen housed at the county veterans' hospital, 2224 Edison avenue, in this county. Mrs. Ruby Overbeck, chapter executive, said today.

Appointments to make a recording are not required. The Tri-City chapter will provide the recording facilities, a disc able to record 15 minutes of conversation, and heavy wrapping material to protect it in transit.

Miss Whittle, Jon A. Doran Exchange Wedding Vows

In an impressive ceremony at 7:30 o'clock Saturday evening at St. Peter United Church of Christ Miss Joyce Whittle, daughter of Mrs. Marie Whittle, 2052 Edison avenue, was married to Jon Allan Doran, a son of Mr. and Mrs. Howard Kelley of Vandalia, Ill.

The bride was escorted down the candlelight aisle and given in marriage by her cousin, Ronald Bukovich.

Bouquets of deep pink and white pom poms adorned the altar for the double-ring ceremony performed by Dr. Robert Baumann. The candles were lighted by Misses Lynn and Maria Edwards of Bloomdale, Mo., cousins of the bride.

A program of wedding music was provided by Howard Mason, vocalist, and Robert Dames, organist. The songs were "O Perfect Love" and "The Wedding Prayer."

The former Miss Whittle wore a slender "A" line gown of tulle with a bodice of re-embroidered Alencon lace motifs over English net.

Long tapered sleeves and a Victorian neckline were features of the gown which ended in a chapel train. A formal length veil of re-embroidered lace was worn Madonna style, and the bride carried a posy bouquet of white roses and lemon leaf.

Miss Barbara Hunter of Johnston City, Ill., maid of honor, and the bridesmaids, Miss Linda Dreier of Bonne Terre, Mo., Miss Barbara Louis of Granite City, Mrs. David Evans of Carol Stream, Ill., and Miss Carolyn Kelley of Vandalia, a sister of the bridegroom, wore identical Empire gowns of rose velvet. They were floor-length with high roll collars and bodices fastened down the back with small covered buttons. Headpieces were long rose net puffs and all held nosegays of pink gladiolus and lemon leaf foliage tied with moss green velvet ribbon.

Kim Kelley, the bridegroom's sister, and Bruce Wright served as flower girl and ring bearer. The former was dressed like the older girls.

COLLINSVILLE EAST ALTON | 20 NAMEOKI VILLAGE GRANITE CITY, ILL. | EAST ST. LOUIS BELLEVILLE

50 YEARS AGO

DECEMBER 2, 1918

An express messenger on the Toledo, St. Louis & Western (Cleveland) Railroad passenger train which left St. Louis at 5:43 p.m. was beaten on the head and thrown from his car here by two robbers. They obtained nothing of major value but did tear open parcels in the baggage car, open the car safe and scatter the contents about the floor.

The bandits are believed to have assumed that the train was carrying a large sum of money with which to pay miners. When they entered the car, they used a heavy auto spring to knock the messenger to the floor before kicking him out. After he rolled down an embankment, they fired five shots at him but all were wild. They apparently left the train near Edwardsville, where the robbery was discovered.

All local ladies' clubs will take part in and assist in an indoor carnival and dance to be used by the Priscilla club at the Elks club to aid the Tri-City chapter of the American Red Cross. The groups will include the Ladies Coterie, Ladies Auxiliary of St. David's Society, Bay View Reading club, Thursday club, St. John's Altar Society, Entre Nous and the Past Noble Grand club.

25 YEARS AGO

DECEMBER 2, 1943

Leo M. Flynn of Chicago, supreme treasurer of the Knights of Columbus, will speak at a banquet of the Tri-City chapter, at which Grand Night Nado Scuratto of Venice will preside. A class of 45 new members will be initiated at the dinner at Sacred Heart Church.

At public ceremonies in the Masonic Temple witnessed by 300 persons, Mrs. Clara H. Haggerty was installed worthy matron and John Scherrer as worthy patron for the 35th year of operation of Granite Chapter 650, Order of Eastern Star.

Appointment by Mayor E. B. Grantham of Albert L. Stevens as Granite City clerk was confirmed by the city council, 12-2. Formerly clerk of the local War Price and Rationing Board, he succeeds the late Edwin Riggs.

Alcohol May Form Drugs in Brain

(AMERICAN CHEMICAL SOCIETY)

Drinking alcohol may result in the formation of traces of hallucinogenic agents in the brain, and this may be the long sought chemical explanation for the symptoms of drunkenness and the more serious effects of alcoholism.

Experiments in the test tube have shown that the body converts alcohol into a compound called "acetaldehyde."

This compound acts on substances in the adrenal glands, the nerve endings, and the brain to form "alkaloids," compounds related to morphine, strychnine and cocaine.

"Although alcohol has been in use since beginning of recorded history, its mode of action on the brain is still unexplained," biochemist Michael A. Collins of the New York State Psychiatric Institute, New York City, Professor Gerald Cohen of the College of Physicians and Surgeons, Columbia University, is co-author of the study.

"Heavy and chronic drinking, in particular, produces clear central nervous system changes, ranging from hyperexcitability and anxiety to more serious syndromes characterized by tremors, disorientation, delusions and occasionally hallucinations," Dr. Collins pointed out.

"Since similar effects on mind and body can be precipitated by various alkaloids, we speculated that alkaloid formation in the body might underlie many of the behavioral effects of alcohol," Dr. Collins pointed out.

A new method for observing the compounds in nerve tissue

had been developed by other investigators. It consisted of treating freeze-dried tissue with fluorescent alkaloid-type compounds which could be observed under ultraviolet light. By various chemical tests, it was established that acetaldehyde (from beverage alcohol) could react with compounds in the nerve endings or in the adrenal glands under ordinary body conditions of temperature and acidity.

Tests were then run with intact adrenal glands of rats by perfusing them with acetaldehyde. After only 30 minutes, at ten to twenty times the concentration of acetaldehyde expected in the blood after alcohol intake, traces of the alkaloid-type compounds were detected.

"The preliminary results of this investigation are encouraging and provocative," the biochemist said.

"It is still far too early to speculate on the relation of this finding to the great social problem of alcoholism."

"All that can be said is that increased understanding of the chemical nature of this disease offers the best hope for eventual control and prevention."

The research was supported by grants from the U. S. Public Health Service.

Many Tax Forms, Books Available

(Internal Revenue Service)

Q. Where can I get the forms I need to report my income? A. Your employer should have copies of Form 4070, Employees Report on "Tiger," which you should use. If he does not have them, send a post card to your district IRS director requesting copies.

Q. I did not get enough Federal Tax Deposit forms to cover all the tax deposits I have to make for my employees' withholding taxes. Where can I get more?

Write to either your district director or the Director of the IRS Service Center for your region.

When you write, be sure to identify yourself by your address and Employer Identification Number. Also indicate the class of tax and the period for which you need additional FTD forms.

Q. I had to retire because of illness and have a disability pension from my company. Will it be taxable for me? A. It all depends on the kind of pension plan your company has and the normal retirement age under the plan. Most pensions will qualify for treatment as sick pay until you reach normal retirement age. Up to \$100 a week may ordinarily be excluded as sick pay.

After you reach retirement age, your pension, or some portion of it, if you use it, may be taxable depending on whether you contributed any part of its cost.

For further details, ask your District Director for Documents 5016, "Sick Pay," and 5018, "Retirement Income and Credit."

Q. Where do I deduct the veterinary fees I paid for my farm livestock last year?

They should be deducted as a "miscellaneous" item on Part II of Schedule F. Livestock medical expenses are deductible too.

Q. How do I go about making a change in my estimated tax payments?

A. A change can be made on the back of the notice you will receive regarding your next payment, which is due Jan. 15. If you didn't adjust your estimated tax payments in September, be sure to do it when you pay your January estimated tax installment.

Q. To supplement my income, I sell mutual funds. Can I reduce my income from this job by a change in my tax status to show the portion of my home used for this purpose and the amount of time it is so used?

For example, if the office space amounts for 10% of your total space, then you may take 10% of such items as rent, light, insurance, real estate taxes and mortgage interest.

Depreciation of the office portion of a home is also deductible if you own it. If you use the office portion only half the time for business purposes, then you may deduct only 50% of the expenses as a business deduction.

Expenses attributable only to the personal portion of a home or apartment are not deductible.

If City Really Means to Help Downtown, It Should Do So Prior to the Election

Continued talk of municipal action to help rejuvenate downtown Granite City is a hopeful sign—if it is more than talk.

A few constructive comments sprinkled here and there on the subject may seem strategically wise for officials considering bids for re-election. But we have a strong feeling that words will not be enough, in the minds of the voting public, to "tide them over" until after the 1969 city voting.

What is needed is action—not heedless, but not delayed.

If something constructive cannot be done by local government now, when the need has been recognized, there is no assurance and little hope that much of consequence will be done later. Who knows who will be elected? The time to strike the iron is when it is hot.

The municipality certainly cannot be blamed for all of the problems of the central business district, but this is not the point. The city government unavoidably affects downtown in nearly everything it does—or doesn't do. Traffic, parking, appropriating regulations, sites, zoning, financing and leadership are all involved.

The amount of retail business that goes outside the Quad-City area is appalling. The waste of gasoline and time is horrendous.

The biggest loser has been downtown Granite City. This is a situation of great concern because a unifying, identifying business core is essential to a community that hopes to remain the master of its own affairs, charting the future instead of merely suffering through it.

If the ship of state of this community is to have a realistic chance of being revived, thriving downtown district easy enough to reach and attractive and interesting enough to make regular visits worthwhile, with wider varieties of stores and merchandise.

Without city government playing a prominent role, the task is made difficult and perhaps impossible. But with active city leadership, almost any level of success is possible.

There are 29 days left in December, days in which discussions could be held and significant steps taken. Will good use be made of these days, or will they, too, along with all that gasoline, be wasted?

Date That Illinois Was Born, Dec. 3, Recalled 150 Years Later

(From the Files of the Press-Record)

The first Illinois Constitution was laid before the Lower House of Congress on Nov. 16, 1818.

Later it was referred to a select committee consisting of Representatives Anderson of Kentucky, Poindexter of Mississippi and Hendricks of Indiana.

This committee reported on Nov. 28 a resolution for the admission of Illinois "on an equal footing with the original states."

The preamble of the resolution declared the constitution and state government, framed by the convention, to be republican and in conformity with the principles of the article of compact of the Ordinance of 1787.

There was some question as to the population of the Territory but on Nov. 23 the resolution was brought up for final action, Tallmadge of New York opened the discussion.

Although he was inclined to admit further evidence that Illinois had the requisite population, he preferred to rest his opposition upon another point.

"The principle of slavery, if it is adopted in the constitution, was at least not sufficiently prohibited," Tallmadge asserted.

He declared that the sixth article of the constitution of the proposed state, in each of its three sections, contravened the Ordinance of 1787 either in letter or in spirit.

In replying to Tallmadge, Poindexter expressed his concurrence in the "solicitude to expel from our country whenever practicable anything like slavery."

But he declared that the article on the subject of slaves was almost literally copied from the constitution of Ohio into that of Illinois.

He also maintained, with more truth, that it would be found impracticable after admitting the state to prevent it from framing or shaping a constitution as it thought proper.

There was considerable other discussion by William Henry Harrison, Andrews and others, but when the ayes and nays were taken, the resolution carried by a vote of 17 to 34.

With the exception of Reed of Maryland, all of those who opposed the Illinois resolution were from the five New England states, New York, New Jersey and Pennsylvania.

They were a majority of the representatives from New England.

Clearly the opposition to the admission of Illinois was due to the provisions relative to slavery in the constitution and, clearly also, the extension of slavery was already a sectional issue in the United States at that time.

The resolution was received in the Senate on Nov. 26 and was referred to the committee on public lands.

On the following day, the committee reported the resolution without amendment and it was considered in Committee of the Whole on Nov. 28 and 30. No debate is reported.

On Dec. 1, the resolution passed the Senate without opposition and on Dec. 3 it received the approval of President Monroe, Illinois was now a state in the Union.

and trials of private enterprise—and have a lot of fun in the process.

The 17 JA companies during the year of their existence carry out all the major tasks of actual firms, including financing, personnel, manufacturing and sales — both the decisions and the work. Stock is sold and dividends, if any, are declared before operations are terminated in the spring.

The Granite City JA center whets appetites and familiarizes teenagers with business and industrial careers. Even more important, it focuses needed attention on the skills and competition that have made possible the diversity, freedom and living standards of the greatest nation in the history of the world.

America will not remain great if it loses sight of one of its most essential ingredients, free enterprise, or if it fails to tell succeeding generations how imperative it is. Thanks to organizations like Junior Achievement, the torch of liberty and progress is being passed on to the young and continues to burn brightly.

Keep City, County Voting Boundaries Identical Wherever This Is Possible

Concerted efforts should be made by city, township and Madison county officials to align municipal and county precincts here and elsewhere so that boundary and polling place confusion can be held to a minimum.

With revisions necessary in three Granite City, two Chouteau and two Nameoki township precincts due to voting turnouts of over 800 in each Nov. 3, care should be taken to make them and city precincts coincide wherever possible.

When voters have to go to several different polls and when they are in doubt about where precinct lines have been drawn, there is a tendency for them to become "election drop-outs." We are sure officials want to avoid this prospect.

Wholehearted Support of Service Agencies Was the Dominant Topic Here in Past Years

The surge in United Fund contributions last week enabled the drive to top \$354,000 and 91%. But there is still a long way to go, and Quad-City residents and employees will need to redouble their efforts if success is to be achieved.

How important is it? All those who are familiar with the operations of one or more of the 19 UF agencies need no convincing.

Assistance to servicemen and their families, the young, the old and others temporarily in need of a helping hand is not really optional, even though the United Fund by its nature is supported voluntarily. The programs which are carried out here tip the scales toward a community pleasant to live in a place where people of all ages can grow in health and spirit, skills and confidence, friendship and respect.

Extreme attention is given to efficiency and economy by administrators and directors of the 19 agencies. Each dollar provides a full dollar's worth of value, and even more funds could be put to good use if they were available.

A few years ago such monetary solicitation was the dominant topic in the Quad-Cities. During world war I, services by the Red Cross to our boys over there were in everybody's thoughts and conversations, and there was never a time when some organization or another was not conducting some kind of project to benefit the agency.

Times have changed, and there is more activity to divert attention. But the financial needs remain, and so does the obligation to meet them.

If each of us was willing to shine shoes or serve a dinner or do whatever is needed to meet 100% of the United Fund goal and perhaps some of the other pressing needs of the member agencies, there would be no question about the eventual success.

If we care enough, we can measure up to the challenge.

Travel Rights of U. S. Citizens

(U. S. Department of State)

I am a U. S. citizen. One thing that makes me proud to be a U. S. citizen is the freedom I enjoy as a citizen.

A small part of that freedom is the freedom to travel anywhere I wish. I understand that this freedom has to be in jeopardy. Please explain.

Dear H. O.: The Department of State has no interest in preventing United States citizens from traveling where they wish.

The Department does have a responsibility to protect our national interest and the welfare of our citizens. At present, the government maintains passport restrictions on travel to Cuba, North Vietnam, North Korea and Communist China.

With respect to travel restrictions to certain areas, a draft bill was submitted to Congress. This bill would make unauthorized travel to a restricted area an offense punishable by up to one year's imprisonment, or a fine up to \$1000, or both.

We are enclosing a statement on travel restrictions, including the reasons for such restrictions, which we believe you will find reassuring.

Russian War Risk? I have been informed that the battleship New Jersey was making a trial run from the Philadelphia Navy Yard.

I was also informed that a Russian ship was on hand to make observations.

I understand that we have an agreement with the Soviet Union, whereby they are permitted to refuse to allow American waters.

My question is, if Russians are permitted to refuse here—do we have the same privilege in Russian Waters?

At the same time, I should like to know whether we have fishing vessels in Russian waters.

First States Adopted An Income Tax in 1911, Sales Tax in 1921

(TAXPAYERS' FEDERATION OF ILLINOIS)

Illinois has for some years relied upon the retail sales tax to supply the greater portion of the funds for its state general revenue.

The retail sales tax is one of the many American institutions which originated as temporary measures but subsequently became permanent and of vast importance to the American scene.

Although West Virginia enacted a sales tax in 1921 and Georgia followed in 1929, the enacting of this type of legislation did not hit its peak until the Great Depression of the 1930s.

Many states were facing great declines in property tax revenues and assistance problems. Therefore, they turned to a "temporary tax" the sales tax.

What was enacted in most states as temporary in the 1930s has become permanent because today 45 states levy a sales tax.

Illinois adopted a sales tax in 1933 at a rate of 2% after a graduated state income tax was found unconstitutional.

As in many other states, the tax was a temporary depression measure to relieve pressing revenue problems due to decreased collections and income tax increase in relief rolls.

The General Assembly made the tax permanent in 1935, and revised the rate to 3%.

In 1941, the sales tax rate was lowered to 2% and that rate was sufficient to finance state expenditures during world war II and the immediate postwar period, even to accumulate a substantial surplus in the state's general fund.

After 1950, expenses rose and the Illinois legislature was forced to raise the sales tax rate in steps of 1/2 of 1% in 1955, 1959 and 1961 to the present 3 1/2%.

At its session in 1967, the legislature raised the rate by another 3/4 of 1% to the present level of 4 1/4%.

From its inception, the sales tax has been the big producer of general revenue at the state level in Illinois.

The yield from the tax in Illinois for 1967 was \$1,175,242,000.

Illinois has based its tax system predominantly upon retail sales. Others, like Wisconsin, have based theirs upon income taxes. But the number of such states has been declining; for example, a sales tax measure was passed by the Wisconsin Legislature in 1961.

'Health Careers Night' Wednesday at Hospital

Employment opportunities and hiring policies in today's modern hospitals will be featured during "Health Careers Night," a special program for Quad-City high school students and other young adults to be conducted between 7 and 9 p.m. Wednesday at St. Elizabeth Hospital.

Cosponsored by the hospital staff and the Health Committee of the Tri-Cities Chamber of Commerce, Wednesday's careers night program is geared to provide local young people an opportunity to investigate many professions now open in the field of health care.

More than 200 possible jobs exist in an up-to-date hospital facility and many positions currently open at the local hospital will be explained in detail at the evening session. Sister Mary Thomas, St. Elizabeth administrator, said today.

All interested high school age students and other young adults are encouraged to attend the special program, she added.

He served as law clerk to a federal judge in Springfield, Ill., and was associated with a local firm of attorneys before establishing his own practice in Madison. Cars driven by Bobbie L. Bouch, 2507 East 23rd street, and Will Butler, 814 Jefferson street, Madison, were damaged about 9 a.m. Thursday in a collision at Fourth street and Madison avenue. No Lighting Contest In GC This Yuletide

The Christmas home lighting and yard decorating contest, sponsored each year by Illinois Power Co. and the Granite City Joyce organization, will not take place this holiday season, Richard M. Dowdy, Joyce president, announced today.

Interest by homeowners in the annual event apparently has diminished the past two years, resulting in fewer entries than ever before registered in last year's competition, Dowdy explained. The lighting contest has been conducted each Yuletide season for almost a decade.

Holiday Call By Son Wounded in Vietnam Combat

"Our family gives thanks to the Lord on this Thanksgiving Day. There are so many things to be thankful for, and we are thankful our son's life was spared."

The remarks were expressed by Mr. and Mrs. John F. Sabo, 2768 Madison avenue, who received a telephone call at 2 a.m. Thursday from their son, Pfc. John F. Sabo Jr. He had suffered a gunshot wound to the head while in combat a week ago today.

The soldier informed his parents that he had undergone surgery late Monday at a military hospital in Vietnam and assured them that he came through the operation "okay" and was able to walk around on Thanksgiving morning.

On Friday, the family received an official telegram from military authorities advising them their son was on the "seriously ill list" in Vietnam on Nov. 28 (Monday) as a result of a gunshot wound to the head. The telegram said he was wounded while engaging a hostile force in a firefight during a combat mission.

"We are very happy that John was able to call us before we received the wire," the soldier's father said Friday. "We were shocked when the call came, but relieved to know he came through the operation all right. It would have been terrible had the telegram arrived before we heard from him. So we have many things for which to be grateful."

Pfc. Sabo, 22, a radio operator, is a member of Co. A, Fifth Battalion, 7th Cavalry of the First Air Cavalry Division. He was last stationed in the vicinity of Loc Ninh, an area close to the Cambodian border, long recognized as a haven for striking Viet Cong forces which retreat to the sanctuary of Cambodia when counter-attacked. He entered the service in January and was assigned to Vietnam five months ago. A 1966 graduate of Granite City high school, he attended the Southern Illinois University southwestern campus for one year and was employed at the Blast Furnace Division of Granite City Steel Co. before joining the Army.

In the telephone conversation with his parents, Pfc. Sabo indicated he may be transferred to a military hospital in Japan for further treatment and convalescence.

A plug-in electric fireplace

and a free gift

The fireplace—It's an electric fireplace that needs no chimney, but Santa won't mind. There'll be a cozy hearth and the look of dancing flames to greet him.

The gift—Besides sparing Santa a sooty chimney trip, you can help lighten his pack. When you buy an electric fireplace from Illinois Power, you get—free—a miniature Illinois Power bucket truck with a snorkel crane that works. It's a gift youngsters will love.

Come in to our office today and walk out with a merry "Instant Christmas." The toy truck is also for sale. Ask about special prices.

Mayors' Council To Urge Action On Major Airport

A request that state officials proceed as soon as possible with plans for a second metropolitan airport to be located in the Illinois portion of the region will be made by the Southwest Illinois Council of Mayors, it was decided in the council's regular meeting Wednesday night.

In session at the Bel-Air Bowl in Belleville, the mayors' group decided to write Gene Graves, director of the Illinois Department of Business and Economic Development, and J. E. Wenzel, director of the Department of Transportation, to express their concern over the project and to urge immediate action toward finalizing plans.

Mayor Raymond O. Rogers of Edwardsville, council president, said the mayors are concerned that the state make a decision on a location for another major airport before Illinois acts toward location of such an airport in Illinois.

State Rep. James "Bud" Krause (D, East St. Louis) said there have been no apparent developments in the program recently and suggested the mayors urge renewed action by state officials, who have pledged themselves to work toward the airport project.

The meeting was called to permit the mayors to meet state senators and representatives at the annual gathering. In addition to Krause, state representatives at the meeting were Sam Vadalabene (D, Edwardsville), Ben C. Harstine (R, New Baden), Kenneth Hall (D, East St. Louis) and William Cunningham (R, Pittsfield). No state senators attended.
